All the transactions entered by CCL during the financial year 2020-21 with related parties were on arm's length basis as per debit advice received from CIL and other Subsidiaries.

ANNEXURE – XI

Report on the Performance and Financial position of each of the Subsidiaries, Associates & Joint Venture Companies for FY 2020-21

[Pursuant to Section 134(3)(q) of the Companies Act, 2013 read with Rule 8(1) of the Companies (Accounts) Rules, 2014]

Jharkhand Central Railway Limited is a Joint Venture Company between Central Coalfields Limited, IRCON International Limited and Govt. of Jharkhand. The company was formed under companies Act 2013.

Name of Promoter entitles	Share Holding Pattern
Central Coalfields Limited	64%
M/s IRCON International Limited	26%
Govt. of Jharkhand	10%

The authorized share capital of the company is 500 Crores.

The performance of JCRL is as under :

1. Jharkhand Central Railway Limited was incorporated on 31.08.2015. Subsequently following project was assigned to be taken up by JCRL.

   - Shivpur – Kathotia new BG Rail line – for Revised Detailed Project Report (DPR) & Bankability report.

   JCRL had signed project execution agreement with IRCON on 28th March 2016. Railway Board has granted in principle approval for transfer of Shivpur-Kathautia New Line Project to be taken up through the joint venture JCRL. The total length from Kathautia (Chainage 0.00) to Shivpur (Chainage 49.085) is 49.085 Kms. Detail Project Report (DPR) has been approved by Ministry of Railways. An inflated mileage of 60% on chargeable distance of 49.085 km has been approved on 13th June 2018 by the Ministry of Railways for a period of 5 years. Concession Agreement between JCRL & E.C. Railway has been signed on 04-12-2018. The Financial closure is under process. Stage-I forestry clearance has been given by MoEF on 19th June 2019. Process of diversion of forest land will start after deposition of required amounts by JCRL to State Govt towards CA, NPV and wild life plan. The construction of project will be taken up subsequently after Forestry clearance and Financial closure.

Financial Position :

During the year 2020-21, the Authorised Capital of the company was Rs. 500.0 Crores.

ANNEXURE – XIII

Declaration of Independent Directors under Sub-section (6) of Section 149

(Pursuant to Section 134(3)(d) of Companies Act, 2013)

To,

The Board of Directors

Central Coalfields Limited

Darbhanga House Ranchi.

SUB : DECLARATION UNDER SUB-SECTION (6) OF SECTION 149

I, Subhau Kashyap, hereby certify that I am a Non-Official Part Time Director of Central Coalfields Limited and comply with all the criteria of independent director envisaged in Clause 49 of the Listing Agreement and applicable provisions of Companies Act, 2013 as & when it may be notified. I hereby certify that:

a. I am not a promoter of the company or its holding, subsidiary or associate company;

b. I am not related to promoters or directors in the company, its holding, subsidiary or associate company

c. I have/had no pecuniary relationship with the company, its holding, subsidiary or associate company, or their promoters, or directors, during the two immediately preceding financial years or during the current financial year;

d. none of my relatives has or had pecuniary relationship or transaction with the company, its holding, subsidiary or associate company, or their promoters, or directors, amounting to % or more of its gross turnover or total income or Rs. 50 Lacs or such higher amount as may be prescribed, whichever is lower, during the two immediately preceding financial years or during the current financial year;

e. Neither Me nor any of my relatives—

I. holds or has held the position of a key managerial personnel or is or has beenemployee of the company or its holding, subsidiary or associate company in anyof the three financial years immediately preceding the financial year

II. is or has been an employee or proprietor or a partner, in any of the three financial years immediately preceding the financial year of-

A. a firm of auditors or company secretaries in practice or cost auditors of the company or its holding, subsidiary or associate company; or

B. any legal or a consulting firm that has or had any transaction with the company, its holding, subsidiary or associate company amounting to 10% or more of the gross turnover of such firm;

III. holds together with his relatives 2% or more of the total voting power of the company; or

IV. is a Chief Executive or director, by whatever name called, of any nonprofit organisation that receives 25% or more of its receipts from the company, any of its promoters, directors or its holding, subsidiary or associate company or that holds 2% or more of the total voting power of the company; or

f. Possesses such other qualifications as may be prescribed under Rule 5 of the Companies (Appointment and Qualification of Directors), 2014.

Thanking you,

Yours faithfully,

MANAGEMENT DISCUSSION & ANALYSIS REPORT

A. INDUSTRY STRUCTURE AND DEVELOPMENT Coal- Primary source of Energy:

Coal is one of the prime fuels in India. It constitutes about 70% of the total generation and will continue to be crucial to the Country's future power needs. India ranks 2nd amongst the coal producing countries in the World. China is the largest producer of Coal with 3693 Million Tonnes (2019), followed by the India with 769 Million Tonnes (2019).

Coal being the most abundant fossil fuel in India till date, it continues as one of the most important sources for meeting the domestic energy needs and will continues to be the mainstay of its future energy supply. It provides most vital input for accelerating the growth of Indian economy. 45% of India's total Energy needs is met by Coal.

Geological Coal Reserve In CCL Command Area as on 01.04.2020

(in Million Tonnes)

Type of coal	Proved	Indicated	Inferred	Total
Coking	8412.05	9296.13	1643.48	19351.66
Non-coking	16447.32	6530.88	2839.07	25817.27
Total	24859.37	15827.01	4482.55	45168.93

Out of 344.02 Billion Tonnes of geological resources of coal estimated in India, CCL Command Area has 45.169 BT as on 01.04.2020, which accounts for 13.13% of total Reserve in India.

Coal Demand:

Coal Demand of CCL in 2021-22 is indicated below. It includes the expected commissioning of power houses during 2021-22 covered under presidential Directives.

Sector wise break-up are as under:

(Million Tonne)

Sector	2021-22
Steel (Coking)	As per MO
Power (U)	74.68
Power(Captive)	3.98
Cement	0.132
Steel DRI	1.35
Others	1.013
Total Non Coking	3.69
Total	84.85

Coal despatch

Sector-Wise coal dispatch of CCL during 2020-21 is 65.268 MT:

(Fig in MT)

Sector	2014-15 Actual	2015-16 Actual	2016-17 Actual	2017-18 Actual	2018-19 Actual	2019-20 Actual	2020-21 Actual
Power	39.692	43.010	45.55	49.589	52.378	53.134	52.896
Steel (Incl. Steel CPP)	3.478	2.793	2.639	2.027	1.600	1.961	1.236
Fertilizers	0.234	0.239	0.221	0.148	0.087	0.143	0.13

***** Others include e-auction, erstwhile Non Core Consumers, Sponge Iron and State Agencies.***

Coal Availability

The actual coal production for 2020-21, Budgeted production for 2021-22 as per Draft AAP from existing mines, completed projects, on-going projects and future projects of CCL is given below:

(Fig in MT)

Group	2015-16 Actual	2016-17 Actual	2017-18 Actual	2018-19 Actual	2019-20 Actual	2020-21 Actual	2021-22 Draft (AAP
Existing Mines	0.451	0.662	0.302	0.367	0.4789	0.18	0.16
Completed Projects	27.56	42.630	40.450	42.107	36.0946	31.89	35.3
On-going Projects	33.32	23.755	22.653	26.247	30.315	30.52	38.33
Future Projects	-	-	-	-	-	-	0.21
Total	61.331	67.047	63.405	68.72	66.889	62.59	74.00

***Note : Group wise production may change whenever any project shift from ongoing to completed& from future to ongoing.**

Productivity:

The OMS position of CCL is as below :

(Fig in MT)

	2012-13 Actual	2013-14 Actual	2014-15 Actual	2015-16 Actual	2016-17 Actual	2017-18 Actual	2018-19 Actual	2019-20 Actual	2020-21 Actual
UG	0.325	0.33	0.29	0.32	0.294	0.194	0.214	0.54	0.44
OC	6.093	6.26	7.56	8.91	9.808	9.372	9.740	10.06	9.57
OVERALL	4.421	4.64	5.46	6.51	7.235	7.195	8.093	8.49	8.39

B. STRENGTH AND WEAKNESSES, OPPORTUNITIES AND THREATS

Strength

1. High production and huge production potential: CCL produced 62.589 MT of coal in 2020-21, which is over 11.11 % of Coal India's Production. The coal reserves in CCL command area is of 45.1689 Billion tonnes(as on 01.04.2020). CCL has about 13.13 % of the coal reserves of India.The coal reserves include non-coking coal (used in power plants) as well as coking coal (used in steel plants). These reserves are good enough for the next 200 years.
2. Infrastructure available in almost all Coal Blocks: For development and operation of coal mines we need a good rail and road network. All coalfields of CCL have a reasonably Good Rail and Road Network. This Network enables swift movement of Coal to the Consumers.
3. Skilled Manpower available in sufficient numbers: CCL has been in the business of Coal Mining for over 40 years. Its manpower strength as on 31.03.2021 is 36717 and which is well conversant in their jobs.
4. Application of information technology is improving gradually: Due to the remoteness of mining areas, implementation and operation of IT initiatives becomes a challenge. There are several hinderances like non- availability/ poor strength of mobile signal/ internet in remote locations, power cuts/ voltage irregularity which affects devices' as well as services' performance. Despite the hinderances, application of IT in mines of CCL is gradually improving.

5. Very low employee attrition rate: The salary and wages offered to the employees in CCL are the best in the Coal Mining Industry. This has resulted in a very low attrition of employees. The performance related pay introduced recently for executives has further boosted the morale of employees.
6. CCL is a Mini-Ratna Category I Company, with a High Financial Autonomy: On the basis of performance of CCL, the Department of Public Enterprises has granted Mini-Ratna Category I status to the Company. This means that the company can approve projects up to Rs. 500 Crores without going to the Government and it can also form joint ventures / subsidiaries / overseas offices.

Weaknesses

1. Old mines with Obsolete Technology: Most of the mines in CCL are old with antiquated equipment. The company has opened a few mines in recent past. State of the art technology is being used in only few mines.
2. Trade Unionism: Trade Unionism is rampant in the mines. Every mine has over six Recognized Trade Unions.
3. Poor work culture: On an average employee work for only 4 hours in an eight-hour shift.

Opportunities:

1. There is huge and almost insatiable demand for coal: The demand –supply gap of coal is likely to increase in future.
2. Outsourcing of production processes: CCL can go for outsourcing in case of projects, beyond the available capacity of the projects. We also go for outsourcing in case of Marginal Deposits (there are many such Coal Deposits) where deployment of Departmental Equipment is uneconomical. Outsourcing now has the support of Trade Unions.
3. Opportunities for value addition for its products through sizing, washing or conversion to Liquid and Gas: The price of washed coking coal is double the price of mined Coking Coal. Washeries may be established to take advantage of the price differential.

Threats:

1. Captive mining in coal is now permitted in India, ending the complete monopoly of the company: CCL has now to compete with private players, who have been allotted coal blocks.
2. There is demand for allowing private coal mining companies to sell all their produce in the open market. Private players produce coal at 60 % of the CCL's cost. If they are allowed to sell coal in the open market then we will be losing valuable Customers.
3. Upcoming private players may poach on the highly skilled employees of the company through better Pay, Perks and Other Facilities: Since the company is a PSU, it can't easily increase the pay and perks etc of the employees as per demand of the market and competition as it has to follow lengthy procedures for the same.
4. Law and order problems in coal mining areas: The law and order situation in mining areas is bad. There are frequent bandhs and extremist groups prevent / interfere with mine development activities. On an average the mines are closed for about 120 days due to poor law and order condition prevailing in Mining areas.
5. Inordinate delay in release of Forest land: There is inordinate delay in the processing of Forest land proposals. The State Govt. takes considerable time in recommending forest land proposals to the MOEF for stage I clearance. There is delay in site inspection by MoEF Regional Office, Bhubneswar. It takes about 4-6 years for release of forest land.
6. Physical possession of acquired land: Great difficulty is being encountered in the physical possession of acquired land. Forest land which is released by the Govt. often has encroachments, which is not easy to get rid off.
7. Rehabilitation of project affected persons: The rehabilitation of project affected persons has become a big bottle neck in the development of new projects, as the demand of PAFs are often, beyond the norms of R&R policy of CIL.

C. PERFORMANCE

The Production and Productivity figures achieved by your Company during the year 2020-21 as compared to the actual of 2019-20 is as under :

Particulars	2020-21		2019-20	% Growth over last year
	Target	Actual	Actual	
Production				
From OC (MT)	73.480	62.166	66.186	-6.074
From UG (MT)	0.520	0.424	0.703	-39.714

OVERALL	**8.750**	**8.39**	**8.49**	

The total Off take of Raw Coal during 2020-21 was 65.40 Million Tones. The Mode-wise details of off-take compared to that of last year is as under

(Figs. in Million Tonnes)

Mode	2020-21	2019-20	Growth over last year
Rail	48.12	35.648	+34.97%
Road	10.23	22.913	-55.35%
Feed to Washery	7.04	8.77	-19.73%
Colliery Consumption	0.00	0.000258	0%
Total Offtake	65.40	67.332	-2.87%

During the year 2020-21, CCL has recorded 34.97 % growth in coal offtake through Rail mode. CCL achieved a growth of -2.87 % in total offtake over last year.

Reasons of less raw coal feed/ consumption in different washeries (Coking+ Non coking)

All the figures in lakh tonnes

Washery	2019-20		2020-21		Reason
Coking	**RCR**	**RCC**	**RCR**	**RCC**	
Kathara, 1969 (3.0MTY)	2.05	3.93	5.68	4.00	The washery was commissioned in 1969 and washery is 52 years old. Less supply of raw coal from linked mine in FY 2019-20. Growth in RC feed in FY 2020-21 over last year 2019-20 is about 18%.
Sawang, 1970 (0.75MTY)	2.54	2.32	0.12	0.46	The washery was commissioned in 1970 and washery is 51 years old. Operation of washery was stopped from Sep 2019 to Dec 2020 due to collapses of main cyclone building. After some modification plant was re-started from Dec 2020.

Rajrappa, 1987 (3.0 MTY)	14.01	10.32	8.52	3.35	The washery was commissioned in 1987 and washery is 34 Years old. Rajrappa Washery Operation is stopped from Feb 2021 due to poor quality of raw coal (W-IV only). The designed circuit cannot handle this raw coal. Earlier combination of W-II, W-III and W-IV raw coal was fed to plant. However, CCL has planned to renovate washery and the tender has been finalized and put up for competent approval.
Kedla, 1997 (2.6 MTY)	5.93	5.92	7.51	7.33	The washery was commissioned in 1997 and washery is 24 Years old. Less supply of raw coal from linked mine in FY 2019-20. Comprehensive maintenance work/ Renovation of Jigs has been started from Feb 2021 and it is going on. Expected to be completed by Jun 2021. Delay in execution of work due to Covid 19 and crisis of Industrial Oxygen.
Total	**24.53**	**22.49**	**21.83**	**15.14**	**Overall consumption is less due to all the washeries have outlived/cross their technological life (i.e. 18 years) and average age of washeries in CCL is approx 42 years.**

Washery	2019-20		2020-21		Reason
Non Coking	**RCR**	**RCC**	**RCR**	**RCC**	
Piparwar, 1997	64.46	64.51	55.26	55.28	The washery was commissioned in 1997 and washery is 24 Years old. Less supply of raw coal in FY 2019-20. In FY 2020-21, less consumption due to Power sector is reluctant to take Washed power coal after the Gazette notification of MoEF date 21.05.2020 for relaxation in transportation of coal beyond 34 % ash with distance beyond 500 kms.
Gidi, 1970 (2.5 MTY)	.	1.73	0.71	0.68	The washery is very old and commissioned in 1970. The technological life of any washery is 18 years. But this washery is 50 years old. Operation of washery has been stopped due to safety reason from 6th Sep 2019.
Total	**65.17**	**65.19**	**55.26**	**55.28**	

D. OUTLOOK

Coal India is striving to achieve 670 MT of coal production in 2021-22, in which Central Coalfields Limited will contribute 74 MT of coal. Major projects of your company such as Magadh EPR OCP (51 MTY), Amrapali EPR OCP (25 MTY), Karo EPR OCP (11 MTY), Konar EPR OCP (8MTY), Ashok EPR OCP (20 MTY), Kotre Basantpur Pachmo OCP (5 MTY), Sanghamitra OCP (20 MTY) and Chandragupta OCP (15 MTY) are also expected to contribute significantly in near future.

F. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The company has well established internal control systems and procedures commensurate with its size and nature of business. A system of “Transaction audit” by outside Audit Firms of Chartered/Cost Accountants is in operation throughout the year in the direction of fullfilling the statutory requirement as well as internal control system. There is a well defined scope, formulated and regulated by CIL, covering all the facets of the operation of the organisation for internal audit jobs.

For achieving the objective of strenghening the internal financial control and also for meeting the statutory provision, physical verification of stores/spares is conducted by teh outside audit firms on annual basis.

The inspection reports of CAG form part of our measures for strengthening the internal control system. The observations of the CAG are replied on regular basis. The observations are well taken care of for taking remedial measures whenever considered necessary.

G. DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

Covered in the main report.

H. MATERIAL DEVELOPMENT IN HUMAN RESOURCES/INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED

Covered in the main report.

I. ENVIRONMENTAL PROTECTION AND CONSERVATION, TECHNOLOGICAL CONSERVATION, RENEWABLE ENERGY DEVELOPMENTS, FOREIGN EXCHANGE CONSERVATION

Covered in the main report.

J. CORPORATE SOCIAL RESPONSIBILITY

Covered in the main report.

K. GOING CONCERN

The Going Concern assumption is a fundamental principle in the preparation of financial statements. Under the going concern assumption, an entity is ordinarily viewed as continuing in business for the foreseeable future with neither the intention nor the necessity of liquidation, ceasing trading or seeking protection from creditors pursuant to laws or regulations.

When an entity has a history of profitable operations and ready access to financial resources, a conclusion that

the going concern basis of accounting is appropriate may be reached without any detailed analysis.

The management has assessed a range of scenarios to determine potential impact on underline performance. As part of going concern assessment, management has assessed the impact of current events and conditions including impact of COVID-19 pandemic and paid attention to significant assumptions that are sensitive or susceptible to change or inconsistent with historical trends. The subject judgment is based on reasonable assumptions and the perception developed by the management on the economic impact of changing internal and external contexts on the company's ability to continue as a going concern.

Based on historical financial results and current economic and market conditions and indicators, it reveals that operations of CCL will continue to be profitable in recent future and there is no effect on going concern of the entity.

L. CAUTIONARY STATEMENT

Statements in the Management Discussion & Analysis and Directors' Report prescribing the Company's objectives; projections and estimates, expectations & predictions etc., may be "forward looking statement and progressive within the meaning of applicable laws & regulations. Forward looking statements contained herein are subject to certain risks and uncertainties that would cause actual results to defer materially from those reflected in the forward looking statements. Actual results will vary from those expressed or implied depending upon economic conditions."

SIGNIFICANT ACCOUNTING POLICIES

NOTE 1 : CORPORATE INFORMATION

Central Coalfields Limited (CCL), a Miniratna company, is a 100% subsidiary of Coal India Limited (A Government of India Undertaking) having its registered office at Darbhanga House, Ranchi, Jharkhand – 834029.

The Company is mainly engaged in mining and production of Coal and also operates Coal washeries. The major consumers of the company are power and steel sectors. Consumers from other sectors include cement, fertilisers, brick kilns etc.

CCL has a joint venture agreement with IRCON International Limited & Government of Jharkhand named Jharkhand Central Railway Limited (JCRL). The basic objective of JCRL is to build, construct, operate and maintain identified Rail Corridor Projects that are critical for evacuation of coal from mines in the State of Jharkhand which shall be used for both freight and passenger services and to develop required rail infrastructure including construction of railway lines together with all related facilities etc.

NOTE 2 : SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation of financial statements

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015.

The Standalone financial statements of the company have been prepared on historical cost basis of measurement, except for

- certain financial assets and liabilities measured at fair value (refer accounting policy on financial instruments in para 2.15);
- Defined benefit plans- plan assets measured at fair value;
- Inventories at Cost or NRV whichever is lower (refer accounting policy in para no. 2.21).

2.1.1 Rounding of Amounts

Amounts in these financial statements have, unless otherwise indicated, have been rounded off to 'rupees in Crore' upto two decimal points.

2.2 Basis of Consolidation

2.2.1 Subsidiaries

Subsidiaries are all entities over which the Company has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are deconsolidated from the date when control ceases.

The acquisition method of accounting is used to account for business combinations by the Company.

The Company combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, cash flows, income and expenses. Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses between group companies are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. All the companies within CCL Consolidated normally uses accounting policies as adopted by the CIL Consolidated for like transactions and events in similar circumstances. In case of significant deviations of a particular constituent company within CCL Consolidated, appropriate adjustments are made to the financial statement of such constituent company to ensure conformity with the CIL Consolidated accounting policies.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

2.2.2 Associates

Associates are all entities over which the Company has significant influence but no control or joint control. This is generally the case where the Company holds between 20% and 50% of the voting rights.

Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost, except when the investment, or a portion thereof, classified as held for sale, in which case it is accounted in accordance with Ind AS 105.

The Company impairs its net investment in the associates on the basis of objective evidence.

2.2.3 Joint arrangements

Joint arrangements are those arrangements where the Company is having joint control with one or more other parties.

Joint control is the contractually agreed sharing of control of the arrangement which exist only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

Joint Arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement.

2.2.4 Joint Operations

Joint operations are those joint arrangements whereby the Company is having rights to the assets and obligations for the liabilities relating to the arrangements.

Company recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the financial statements under the appropriate headings.

2.2.5 Joint ventures

Joint ventures are those joint arrangements whereby the Company is having rights to the net assets of the arrangements.

Interests in joint ventures are accounted for using the equity method, after initially being recognised at cost in the consolidated balance sheet.

Investments in Joint venture are accounted for using the equity method of accounting, after initially being recognized at cost, except when the investment, or a portion thereof, classified as held for sale, in which case it is accounted in accordance with Ind AS 105.

The Company impairs its net investment in the joint venture on the basis of objective evidence.

2.2.6 Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Company's share of the post-acquisition profits or losses of the investee in profit and loss, and the Company's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Company's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Company does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Company and its associates and joint ventures are eliminated to the extent of the Company's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Company.

2.2.7 Changes in ownership interests

The Company treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Company. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any fair value of consideration paid or received is recognised within equity

When the Company ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is re-measured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Company had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

2.3 Current and non-current Classification

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is treated as current by the Company when:

(a) it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;

(b) it holds the asset primarily for the purpose of trading;

(c) it expects to realise the asset within twelve months after the reporting period; or

(d) the asset is cash or a cash equivalent (as defined in Ind AS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is treated as current by the Company when:

(a) it expects to settle the liability in its normal operating cycle;

(b) it holds the liability primarily for the purpose of trading;

(c) the liability is due to be settled within twelve months after the reporting period; or

(d) it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

2.4 Revenue recognition

Ind AS 115, Revenue from Contracts with Customers supersedes Ind AS 11 Construction Contracts and Ind AS 18 Revenue recognition, and it applies to all revenue arising from contracts with its customers. Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which a Company expects to be entitled in exchange for transferring goods or services to a customer. Coal India Limited ('CIL' or 'the company') has adopted Ind AS 115 using the retrospective method of adoption.

Ind AS 115 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

2.4.1 Revenue from contracts with customers

Coal India Limited is an Indian state controlled enterprise headquartered in Kolkata, West Bengal, India and the largest coal producing company in the world. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

The principles in Ind AS 115 are applied using the following five steps:

Step 1 : Identifying the contract

The Company account for a contract with a customer only when all of the following criteria are met:

a) the parties to the contract have approved the contract and are committed to perform their respective obligations;

b) the Company can identify each party's rights regarding the goods or services to be transferred;

c) the Company can identify the payment terms for the goods or services to be transferred;

d) the contract has commercial substance (i.e. the risk, timing or amount of the Company's future cash flows is expected to change as a result of the contract); and

e) it is probable that the Company will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. The amount of consideration to which the Company will be entitled may be less than the price stated in the contract if the consideration is variable because the Company may offer the customer a price concession, discount, rebates, refunds, credits or be entitled to incentives, performance bonuses, or similar items.

Combination of contracts

The Company combines two or more contracts entered into at or near the same time with the same customer (or related parties of the customer) and account for the contracts as a single contract if one or more of the following criteria are met:

a) the contracts are negotiated as a package with a single commercial objective;

b) the amount of consideration to be paid in one contract depends on the price or performance of the other contract; or

c) the goods or services promised in the contracts (or some goods or services promised in each of the contracts) are a single performance obligation.

Contract modification

The Company account for a contract modification as a separate contract if both of the following conditions are present:

a) the scope of the contract increases because of the addition of promised goods or services that are distinct and

b) the price of the contract increases by an amount of consideration that reflects the company's stand- alone selling prices of the additional promised goods or services and any appropriate adjustments to that price to reflect the circumstances of the particular contract.

Step 2 : Identifying performance obligations

At contract inception, the Company assesses the goods or services promised in a contract with a customer and identify as a performance obligation each promise to transfer to the customer either:

a) a good or service (or a bundle of goods or services) that is distinct; or

b) a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

Step 3 : Determining the transaction price

The Company consider the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties. The consideration promised in a contract with a customer may include fixed amounts, variable amounts, or both.

When determining the transaction price, an Company consider the effects of all of the following:

- Variable consideration;
- Constraining estimates of variable consideration;
- The existence of significant financing component;
- Non – cash consideration;
- Consideration payable to a customer.

An amount of consideration can vary because of discounts, rebates, refunds, credits, price concessions, incentives, performance bonuses, or other similar items. The promised consideration can also vary if the company's entitlement to the consideration is contingent on the occurrence or non-occurrence of a future event.

In some contracts, penalties are specified. In such cases, penalties are accounted for as per the substance of the contract. Where the penalty is inherent in determination of transaction price, it form part of variable consideration.

The Company includes in the transaction price some or all of an amount of estimated variable consideration only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

The Company does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between when it transfers a promised goods or service to a customer and when the customer pays for that good or service will be one year or less.

The Company recognizes a refund liability if the Company receives consideration from a customer and expects to refund some or all of that consideration to the customer. A refund liability is measured at the amount of consideration received (or receivable) for which the company does not expect to be entitled (i.e. amounts not included in the transaction price). The refund liability (and corresponding change in the transaction price and, therefore, the contract liability) is updated at the end of each reporting period for changes in circumstances.

After contract inception, the transaction price can change for various reasons, including the resolution of uncertain events or other changes in circumstances that change the amount of consideration to which the Company expects to be entitled in exchange for the promised goods or services.

Step 4 : Allocating the transaction price

The objective when allocating the transaction price is for the Company to allocate the transaction price to each performance obligation (or distinct good or service) in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for transferring the promised goods or services to the customer.

To allocate the transaction price to each performance obligation on a relative stand-alone selling price basis, the Company determines the stand-alone selling price at contract inception of the distinct good or service underlying each performance obligation in the contract and allocate the transaction price in proportion to those stand-alone selling prices.

Step 5 : Recognizing revenue

The Company recognizes revenue when (or as) the Company satisfies a performance obligation by transferring a promised good or service to a customer. A good or service is transferred when (or as) the customer obtains control of that good or service.

The Company transfers control of a good or service over time and, therefore, satisfies a performance obligation and recognizes revenue over time, if one of the following criteria is met:

a) the customer simultaneously receives and consumes the benefits provided by the company's performance as the Company performs;

b) the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced;

c) the Company's performance does not create an asset with an alternative use to the Company and the Company has an enforceable right to payment for performance completed to date.

For each performance obligation satisfied over time, the Company recognizes revenue over time by measuring the progress towards complete satisfaction of that performance obligation.

The Company applies a single method of measuring progress for each performance obligation satisfied over time and the Company applies that method consistently to similar performance obligations and in similar circumstances. At the end of each reporting period, the Company re-measure its progress towards complete satisfaction of a performance obligation satisfied over time.

Company apply output methods to recognize revenue on the basis of direct measurements of the value to the customer of the goods or services transferred to date relative to the remaining goods or services promised under the contract. Output methods include methods such as surveys of performance completed to date, appraisals of results achieved, milestones reached, time elapsed and units produced or units delivered.

As circumstances change over time, the Company update its measure of progress to reflect any changes in the outcome of the performance obligation. Such changes to the Company's measure of progress is accounted for as a change in accounting estimate in accordance with Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors.

The Company recognizes revenue for a performance obligation satisfied over time only if the Company can reasonably measure its progress towards complete satisfaction of the performance obligation. When (or as) a performance obligation is satisfied, the company recognize as revenue the amount of the transaction price (which excludes estimates of variable consideration that are constrained that is allocated to that performance obligation.

If a performance obligation is not satisfied over time, the Company satisfies the performance obligation at a point in time. To determine the point in time at which a customer obtains control of a promised good or service and the Company satisfies a performance obligation, the Company consider indicators of the transfer of control, which include, but are not limited to, the following:

a) the Company has a present right to payment for the good or service;

b) the customer has legal title to the good or service;

c) the Company has transferred physical possession of the good or service;

d) the customer has the significant risks and rewards of ownership of the good or service;

e) the customer has accepted the good or service.

When either party to a contract has performed, the Company present the contract in the balance sheet as a contract asset or a contract liability, depending on the relationship between the company's performance and the customer's payment. The Company present any unconditional rights to consideration separately as a receivable.

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment made or due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract.

2.4.2 Interest

Interest income is recognised using the Effective Interest Method.

2.4.3 Dividend

Dividend income from investments is recognised when the rights to receive payment is established.

2.4.4 Other Claims

Other claims (including interest on delayed realization from customers) are accounted for, when there is certainty of realisation and can be measured reliably.

2.4.5 Rendering of Services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised with reference to the stage of completion of the transaction at the end of the reporting period. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

(a) the amount of revenue can be measured reliably;

(b) it is probable that the economic benefits associated with the transaction will flow to the Company;

(c) the stage of completion of the transaction at the end of the reporting period can be measured reliably; and

(d) the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

2.5 Grants from Government

Government Grants are not recognised until there is reasonable assurance that the company will comply with the conditions attached to them and that there is reasonable certainty that grants will be received.

Government grants are recognised in Statement of Profit & Loss on a systematic basis over the periods in which the company recognises as expenses the related costs for which the grants are intended to compensate.

Government Grants related to assets are presented in the balance sheet by setting up the grant as deferred income and are recognised in Statement of Profit and Loss on systematic basis over the useful life of asset.

Grants related to income (i.e. grant related to other than assets) are presented as part of statement of profit and loss under the head 'Other Income'.

A government grant/assistance that becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs, is recognised in profit or loss of the period in which it becomes receivable.

The Government grants or grants in the nature of promoter's contribution should be recognised directly in "Capital Reserve" which forms part of the "Shareholders fund".

2.6 Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration.

2.6.1 Company as a lessee

At the commencement date, a lessee shall recognise a right-of-use asset at cost and a lease liability at the present value of the lease payments that are not paid at that date.

Subsequently, right-of-use asset is measured using cost model whereas, the lease liability is measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications.

2.6.2 Company as a lessor

All leases as either an operating lease or a finance lease.

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset.

Operating leases- Lease payments from operating leases are recognised as income on either a straight-line basis unless another systematic basis is more representative of the pattern in which benefit from the use of the underlying asset is diminished.

Finance leases- assets held under a finance lease is initially recognised in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease using the interest rate implicit in the lease to measure the net investment in the lease.

Subsequently, finance income is recognised over the lease term, based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease."
