Jharkhand, India

Our report of event date is to be read along with this letter.

MANAGEMENT'S RESPONSIBILITY

The responsibilities of the management of the Company are as under:

1. Maintenance of secretarial records is the responsibility of the management of the Company. Our responsibility is to express an opinion on these secretarial records based on our audit.
2. We have followed the audit practices and the processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. We believe that the processes and practices, we followed provide a reasonable basis for our opinion.
3. We have not verified the correctness and appropriateness of financial records and Books of Account of the Company or examined any books, information or statements other than Books and Papers.
4. We have not examined any other specific laws except as mentioned above.
5. Wherever required, we have obtained the Management Representation about the compliance of aforesaid Laws, Rules, Regulations, Standards, Guidelines and happening of events etc
6. The compliance of the provisions of corporate laws and other applicable Rules, Regulations, Guidelines, Standards etc. is the responsibility of management. Our examination was limited to the verification of procedure on test basis
7. The Secretarial Audit Report is neither an assurance as to the future viability of the Company nor of the efficacy or effectiveness with which the management has conducted the affairs of the Company.

ANNEXURE - B

MANAGEMENT REPLY TO SECRETARIAL AUDITOR'S OBSERVATION

As per section 204 of the Companies Act' 2013, J.K. Das & Associates has been appointed to conduct Secretarial Audit of M/s. Central Coalfields Ltd. Ranchi. The management's reply in respect of the observation of Secretarial Audit Report for financial year ended 31st March 2025 as submitted by J.K. Das & Associates is as under:

SN.	Observation	Management Reply
1	As per the Presidential Directive received by the Company on the composition of Board vide letter no. 21/35/2005-ASO (iv) dated 06.06.2008, the Board do not have required number of Independent Directors.	This is a statement of fact. CCL is a "Government Company" under the administrative control of Ministry of Coal, Government of India. As per the Articles of Association of the Company, the power to appoint/nominate Directors on the Board of the Company vests with President of India, Government of India acting through Administrative Ministry as per Guidelines issued by DPE. Representations has been made to Administrative Ministry for filling up of vacancies of Non-Official Part-time (Independent) Directors on Board of the company.
2	The requisite number of Independent Directors were not on the Board of the Company as contemplated in Section 149(4) of the Act and the Clause 3.1.2 of DPE Guidelines on Corporate Governance for Central Public Sector Enterprise (CPSE) issued by the Department of Public Enterprises (DPE) during the period under review. As the appointment was done by the Ministry of Coal, requisite letters were sent for appointment of the Independent Directors by the management from time to time to Ministry of Coal with copy to its Holding Company.	Same as point no. 1.
3	Further, composition of the Audit Committee of the Board of Directors of the Company, the requisite number of Independent Directors were not on the Audit Committee as contemplated in Section 177 of the Companies Act, 2013 and Clause 4.1.1 of the DPE Guidelines for Corporate Governance on CPSE, during the period under review due to non-availability of Independent directors on the Board.	Same as point no. 1.
4	During the year under review, no separate meeting of Independent Directors was held as per the provisions of section 149(8) of the Companies Act 2013 read with schedule IV due to only one Independent Director on the Board).	This is a statement of fact. During the period under review, there was only one Independent Director on the Board of the Company, thereby meeting of Independent Directors could not be held.

ANNEXURE-IV

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143 (6) (b) OF THE COMPANIES ACT, 2013 ON THE FINANCIAL STATEMENTS OF CENTRAL COALFIELDS LIMITED FOR THE YEAR ENDED 31ST MARCH 2025

The preparation of financial statements of Central Coalfields Limited for the year ended 31st March 2025 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the company. The statutory auditors appointed by the Comptroller and Auditor General of India under section 139 (5) of the Act are responsible for expressing opinion on the financial statements under section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143 (10) of the Act. This is stated to have been done by them vide their Revised Audit Report dated 04 June 2025 and 07 June 2025 which supersedes their earlier Audit Report dated 26th April 2025.

I, on behalf of the Comptroller and Auditor General of India have conducted a supplementary audit of the financial statements of Central Coalfields Limited for the year ended 31st March 2025 under section 143(6)(a) of the Act. This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records. The Audit Report has been revised by the statutory auditor to give effect to some of my audit observations raised during supplementary audit.

In addition, I would like to highlight the following significant matters under section 143(6)(b) of the Act which have come to my attention and which in my view are necessary for enabling a better understanding of the financial statements and related audit report:

A. Comment on Profitability

A.1 Statement of Profit and Loss

Other current liabilities (Note-10.2) ₹ 2808.02 Crore

Above does not include an amount of ₹ 364.44 Crore payable to the Mineral Area Development Authority (MADA), Urban Development Department, Government of Jharkhand.

Urban Development Department, Government of Jharkhand, vide notification (January 2006) imposed a levy of 1 percent fee on the sale value of the coal and coke. As per the said notification, MADA was the authorized agency to collect the same in respect of the notified areas. The levy, so imposed, was challenged by CCL in the Jharkhand High Court. Accordingly, CCL has shown ₹ 364.44 Crore for the period of 2005-06 to 2022-23 as Contingent Liability. CCL is paying the said fee from financial year 2023-24 onwards.

Hon'ble Supreme Court Judgment dated 25.07.2024 related to State's power to tax mines and mineral Rights, clarified that States may levy or renew demands of tax. The demand of tax shall not operate on transactions made prior to 1st April 2005. Further, the Hon'ble Supreme court has rejected the submission regarding applicability of MADA with prospective effect.

Despite the above judgment of the Hon'ble Supreme Court, CCL has shown the amount of ₹ 364.44 Crore as Contingent Liability and has not recognized the amount as liability.

As per Ind AS-37, Para 14 of Provisions, Contingent Liabilities, and Contingent Assets a provision shall be recognized when an entity has a present obligation (legal or constructive) as a result of a past event; it is probable

that an outflow of resources embodying economic benefits would be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

Thus, non-recognition of the above amount as liability despite the judgment of the Hon'ble Supreme Court has resulted in understatement of other current liability and expenditure and overstatement of profit for the year by ₹ 364.44 Crore.

B. Comments on Disclosure

B.1 Property, Plant and Equipment (Note-3.1) Mutation of Land

The Company acquires land under the Coal Bearing Area (Acquisition and Development) Act, 1957 and is vested in the name of the Company. The Ministry of Coal instructed (April 2022) the coal companies to get the land records mutated in the name of the Company as an absolute owner. CCL has 15734.11 hectares of land in its possession, out of which mutation has been done only against 656.06 hectares of land and the balance land is yet to be mutated in the name of the Company.

The above facts regarding non-mutation of land in the name of CCL have not been disclosed in the Notes to the financial statements. Also, the disclosure under the Companies (Auditor's Report) Order is also deficient to that extent.

B.2 Additional Notes to Financial Statement (Note 16)

Contingent Liabilities (Item 1 (a)) - ₹ 4919.50 Crore

The above does not include an amount of ₹ 28.62 Crore in respect of the demand raised (22nd March 2025) by DMO, Chatra towards short deposit of Royalty on coal for the period from April 2011 to March 2013. In this regard, CCL decided to contest the same before DMO, Chatra. As this was a pending demand as on the balance sheet date, the same should have been shown under contingent liability in the books of account for the year 2024-25 but the same has not been done. Paragraph 10 of Ind AS 37 on Provisions, Contingent Liabilities and Contingent Assets states that a contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

This resulted in understatement of Contingent Liabilities by ₹ 28.62 Crore.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143 (6) (b) READ WITH SECTION 129 (4) OF THE COMPANIES ACT, 2013 ON THE CONSOLIDATED FINANCIAL STATEMENTS OF CENTRAL COALFIELDS LIMITED FOR THE YEAR ENDED 31 MARCH 2025

The preparation of financial statements of Central Coalfields Limited for the year ended 31 March 2025 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the company. The statutory auditors appointed by the Comptroller and Auditor General of India under section 139 (5) read with section 129 (4) of the Act is responsible for expressing opinion on the financial statements under section 143 read with section 129(4) of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143 (10) of the Act. This is stated to have been done by them vide their Revised Audit Report dated 4TH June 2025 and 07 July 2025 which supersedes their earlier Audit Report dated 26th April 2025.

I, on behalf of the Comptroller and Auditor General of India have conducted a supplementary audit of the financial statements of Central Coalfields Limited for the year ended 31 March 2025 under section 143(6)(a) read with section 129(4) of the Act. We conducted a supplementary audit of the financial statement of Jharkhand Central Railway Limited. This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records. The Audit Report has been revised by the statutory auditor to give effect to some of my audit observations raised during supplementary audit.

In addition, I would like to highlight the following significant matters under section 143(6)(b) read with section 129(4) of the Act which have come to my attention and which in my view are necessary for enabling a better understanding of the financial statements and related audit report:

A. Comment on Profitability

A.1 Statement of Profit and Loss Other current liabilities (Note-10.2) ₹ 2808.02 Crore

Above does not include an amount of ₹ 364.44 Crore payable to the Mineral Area Development Authority (MADA), Urban Development Department, Government of Jharkhand.

Urban Development Department, Government of Jharkhand, vide notification (January 2006) imposed a levy of 1 percent fee on the sale value of the coal and coke. As per the said notification, MADA was the authorized agency to collect the same in respect of the notified areas. The levy, so imposed, was challenged by CCL in the Jharkhand High Court. Accordingly, CCL has shown ₹ 364.44 Crore for the period of 2005-06 to 2022-23 as Contingent Liability. CCL is paying the said fee from financial year 2023-24 onwards.

Hon'ble Supreme Court Judgment dated 25.07.2024 related to State's power to tax mines and mineral Rights, clarified that States may levy or renew demands of tax. The demand of tax shall not operate on transactions made prior to 1st April 2005. Further, the Hon'ble Supreme court has rejected the submission regarding applicability of MADA with prospective effect.

Despite the above judgment of the Hon'ble Supreme Court, CCL has shown the amount of ₹ 364.44 Crore as Contingent Liability and has not recognized the amount as liability.

As per Ind AS-37, Para 14 of Provisions, Contingent Liabilities, and Contingent Assets a provision shall be recognized when an entity has a present obligation (legal or constructive) as a result of a past event; it is probable

that an outflow of resources embodying economic benefits would be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

Thus, non-recognition of the above amount as liability despite the judgment of the Hon'ble Supreme Court has resulted in understatement of other current liability and expenditure and overstatement of profit for the year by ₹ 364.44 Crore.

B.2 Comments on Disclosure

Hon'ble Supreme Court Judgment dated 25.07.2024 related to State's power to tax mines and mineral Rights, clarified that States may levy or renew demands of tax. The demand of tax shall not operate on transactions made prior to 1st April 2005. Further, the Hon'ble Supreme court has rejected the submission regarding applicability of MADA with prospective effect. Despite the above judgment of the Hon'ble Supreme Court, CCL has shown the amount of ₹ 364.44 Crore as Contingent Liability and has not recognized the amount as liability. As per Ind AS-37, Para 14 of Provisions, Contingent Liabilities, and Contingent Assets a provision shall be recognized when an entity has a present obligation (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits would be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation. Thus, non-recognition of the above amount as liability despite the judgment of the Hon'ble Supreme Court has resulted in understatement of other current liability and expenditure and overstatement of profit for the year by ₹ 364.44 Crore.	The Bihar (Coal Mining) Area Development Authority Act, 1986, published in the Bihar Gazette (Extraordinary No. 568) on October 1, 1986, was enacted to provide for growth and development of the coal mining areas in the state. This Act was later amended in 1992 through the Bihar Coal Mining Area Development Authority (Amendment) Act, 1992. Upon the creation of Jharkhand as a separate State in 2000, Jharkhand did not initially have its own legislation for coal mining area development. The state of Jharkhand adopted the said Bihar act through its notification no. 5 of 2001, titled the same as 'Jharkhand Mineral Area Development Authority (Amendment and Adoption) Act, 2000'. Thereafter, notification No. 179 dated 18th January 2006 was issued by 'the Urban Development Department, Government of Jharkhand, imposing levy of 1% market fee on the sale of coal and coke. It is to mention that an Act often includes provisions that allow for rules or regulations to be made under its authority to implement the provisions of Act including the aspect of registration, collection of levy, periodicity of the payment of levy and forms/challans to be used etc. Whereas, JMADA had not notified any rule till 2009 so as to implement the provisions of the said Act. In exercise of power conferred under sub-section 2(zk) of section 128 of the Jharkhand Mineral Area Development Authority Act, 2000, the "Mineral Area Development Authority Market Fee Rules, 2010" was published in Jharkhand Gazette Extraordinary No. 256 dated May 13, 2010. The stage wise above developments made under the said act has created complexity regarding the applicability of the aforesaid rules. Further, the Jharkhand State Legislature amended this Act, enacting the changes through a gazette notification dated January 25, 2016, for public information. The amendment, titled the Jharkhand Mineral Area Development Authority (Amendment) Act, 2015, granted the authority the power to ensure the payment and recovery of market fees and other dues payable to it by introducing a new Section 90C. It was further specified that these provisions would be deemed to be effective retrospectively from 18-01-2006. It is noteworthy to mention that the rules made in 2010 and subsequent amendment made under this act in 2016, both are made effective with retrospective date i.e. from 18-01-2006. The subject matter has been disputed by CCL before the Hon'ble High Court, Jharkhand. The company acts as an agent between the State Government and the Coal Consumers. The Market Fee (1% of Basic Price) is a component of gross sale value, which is supposed to be paid by the consumer and ultimately goes to the Mineral Area Development Authority (MADA). As, it does not constitute revenue or income for CCL, it has no impact on the Statement of profit and loss or financial performance of the Company.

C&AG Comments	Management Reply
	Secondly, during the discussion held in joint scheduled meeting of JMADA and the officials of CCL on 30-05-2023 at the office of Managing Director, JMADA, it was agreed that the Company would collect the market fee from consumers and paid it to MADA from 01/04/2023 and further, the aspect of market fee prior to the FY 2023-24 shall be paid as per outcome of suit filed in the Hon'ble High Court, Ranchi. The above writ petition is currently pending with Hon'ble Jharkhand High Court vide WP(C) NO. 1563 of 2007. For recognition of provision as per Ind AS 37, conditions laid down under para 14 should be complied with which as are under : "A provision shall be recognised when: • an entity has a present obligation (legal or constructive) as a result of a past event; • it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and • a reliable estimate can be made of the amount of the obligation. If these conditions are not met, no provision shall be recognised." Further, the Para 53 to Para 58 of Ind AS – 37 'Provisions, Contingent Liabilities and Contingent Assets' inter-alia deals with the aspects of reimbursements / recoverability of any provision / liability from another party. It inter-alia states that if some / all of the expenditure required to settle a provision / liability is expected to be recovered by another party, the associated line item i.e. expenses related to provision / liability may be presented net of the reimbursement amount. In the present case matter, as the market fee is recoverable from the consumers as per FSA / applicable provision, hence, any provision in the said matter is required to be recognized net of reimbursement / recoverability. Accordingly, even if the provision is accounted there would not be any understatement of profit as the net charge to the Statement of Profit and Loss would be zero. Moreover, Para – 58 also clarify that any obligation for which an entity is jointly and severally liable is a contingent liability to the extent that it is expected that the obligation will be settled by other parties. Although the said para is not directly applicable in the said matter, however, a reference may be drawn that in cases where any obligation is not impacting the Statement of Profit and Loss /Statement of Affairs, the same may be presented as contingent liability. In the present case matter, there is complexity of applicability of effective date of application of the Act and rules made thereunder, the quantification of the liability and the aspect of the recoverability of the same from the consumers. Moreover, it is also substantiated by the fact that even after almost one year of Supreme Court decision, no demand for deposition of the amount has been raised by authority till date. Accordingly, the establishment of present obligation along with its quantification will wholly depend upon the outcome of the writ petition and the probable consequences, if any, will be based on the outcome of the writ petition filed before Hon'ble High Court. Hence, the said event has been reported as Contingent Liability in the Financial Statement for the year 2024-25 as per AS 37.

Management Reply

B. Comments on Disclosure**B.1 Property, Plant and Equipment
(Note-3.1 Mutation of Land)**

The Company acquires land under the Coal Bearing Area (Acquisition and Development) Act, 1957 and is vested in the name of the Company. The Ministry of Coal instructed (April 2022) the coal companies to get the land records mutated in the name of the Company as an absolute owner. CCL has 15734.11 hectares of land in its possession, out of which mutation has been done only against 656.06 hectares of land and the balance land is yet to be mutated in the name of the Company.

The above facts regarding non-mutation of land in the name of CCL have not been disclosed in the Notes to the financial statements. Also, the disclosure under the Companies (Auditor's Report) Order is also deficient to that extent.

B.2 Additional Notes to Financial Statement (Note 16)**Contingent Liabilities (Item 1 (a)) - ₹ 4919.50 Crore**

The above does not include an amount of 28.62 Crore in respect of the demand raised (22 March 2025) by DMO, Chatra towards short deposit of Royalty on coal for the period from April 2011 to March 2013. In this regard, CCL decided to contest the same before DMO, Chatra. As this was a pending demand as on the balance sheet date, the same should have been shown under contingent liability in the books of account for the year 2024-25 but the same has not been done. Paragraph 10 of Ind AS 37 on Provisions, Contingent Liabilities and Contingent Assets states that a contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

This resulted in understatement of Contingent Liabilities by 28.62 Crore.

The information regarding land mutation is not specifically required to be disclosed under Ind AS or Schedule III of the Companies Act. Nevertheless, the Company has made the necessary disclosure with respect to the title of the land.

Any disclosure should be made bearing in mind the overarching principle under Note 4(ii) in General Instructions for Preparation of Financial Statements that "a balance shall be maintained between providing excessive detail that may not assist users of Financial Statements and not providing important information as a result of too much aggregation."

The status of mutation of land, required by the Administrative Ministry as procedural compliance may not add value to the user of financial statements, hence, the same is not disclosed..

A demand qualifies for disclosure as contingent liability only when there is possibility of any outflow in settlement i.e. matter should be under consideration with any forum/appellate authority and possible obligation will be confirmed only by the occurrence or non-occurrence of uncertain future event i.e. pronouncement of decision/judgement by the forum/appellate authority.

In the referred case, as per direction of the Hon'ble High Court of Jharkhand, the matter was referred back to the DMO Chatra to pass a fresh order by providing opportunity of being heard. Accordingly, DMO Chatra started a fresh enquiry by issuing a letter seeking reply or appear in person.

Mere issuance of letter seeking reply or to appear in person only does not meet the definition of contingent liability laid down under Ind AS 37. Accordingly, the company has not considered it as contingent liability.

CEO AND CFO CERTIFICATION

Date: 25/04/2025

To
The Board of Directors
Central Coalfields Limited

We, Nilendu Kumar Singh, Chairman-cum-Managing Director, Central Coalfields Limited, Ranchi and Pawan Kumar Mishra, Director (Finance), Central Coalfields Limited, Ranchi responsible for the finance function certify that

- a. We have reviewed the Financial Statements of the Company for the year ended 31st March 2025 together with Accounting Policies and Additional Notes thereon as well as Financial statements for the year ended 31st March 2025 as per Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and that to the best of our knowledge and belief:
 - i. These statements do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading;
 - ii. These statements together present a true and fair view of the company's affairs and are in compliance with existing accounting standards i.e. IND AS, applicable laws and regulations without any material departure
- b. There are, to the best of our knowledge and belief, no transactions entered into by the company during the year ended 31st March 2025 are fraudulent, illegal or violative of the company's code of conduct.
- c. We accept responsibility for establishing and maintaining internal controls for financial reporting and we have evaluated the effectiveness of internal control systems of the company pertaining to financial reporting and we have disclosed to the auditors and the Audit Committee, deficiencies in the design or operation of such internal controls, if any, of which they are aware and the steps they have taken or propose to take to rectify these deficiencies.
- d. We have indicated to the auditors and the Audit Committee that:
 - i. There have not been any significant changes in internal control over financial reporting during the period under reference;
 - ii. There has not been any significant change in accounting policies during the period.
 - iii. We have not become aware of any instance of significant fraud with involvement therein of the management or an employee having a significant role in the company's internal control system over financial reporting.

II. The steps taken by the company for utilizing alternate sources of energy:

Solar Energy data for FY 2024-25:

Sl. No.	Description	
1.	Total installed capacity (in MWp) of Roof Top Solar Power Plant up to March'25	25.25 MW
2.	Installation work completed in FY 24-25 and awaited for commissioning due to net-metering approval from JBVNL	2.05 MW
3.	Under construction Solar Power Plants (Balakudra, Barkasayal Area) [First solar project over OB Dump]	05 MW
4.	Other Awarded solar power project during 2024-25	13 MW Solar Power Plant, NK Area
5	Total Solar Energy generated during FY:2024-25	287.95 Lakh units

III. The Capital investment on energy conservation equipment's;

The total capital investment on energy conservation equipment (Including Solar Plants) in FY 2024-25 by E&M Department, CCL (All Areas) is approx. ₹ 45.00 Crore.

ANNUAL REPORT ON CSR ACTIVITIES FOR FINANCIAL YEAR COMMENCING ON 1ST DAY OF APRIL (FY 2024-25)

1. Brief outline on CSR policy of the Company

At Central Coalfields Limited (CCL), Corporate Social Responsibility (CSR) remains a fundamental aspect of our commitment to fostering inclusive and sustainable development. Even prior to the formalization of CSR as a statutory requirement, CCL proactively engaged in community development, particularly within an 8-kilometre radius of its operational areas. These early efforts laid the groundwork for the structured CSR framework that guides our initiatives today.

Our CSR efforts are implemented under a clearly defined policy structure. Up to September 2021, CCL operated under the CSR Policy of Coal India Limited (CIL), which applied uniformly across all subsidiaries. Following the revision of the CIL CSR Policy—effective April 8, 2021—CCL adopted the revised provisions. Again, in August, 2024, the CIL CSR policy was modified and the same was adopted by CCL. The Board of Directors subsequently approved the CCL-specific CSR Policy, based on recommendations from the Board-level Sustainable Development and CSR (SD&CSR) Committee. This policy was officially circulated on October 7, 2024.

CSR funding at CCL is determined based on the higher of the following two criteria: (i) **2% of the average net profits of the company during the three immediately preceding financial years**, or (ii) **₹ 2.00 per tonne of coal produced in the immediately preceding financial year**.

The policy also includes comprehensive procedures for managing unspent or excess CSR funds. Any expenditure exceeding the prescribed amount in a financial year may be carried forward and adjusted against future CSR obligations. Conversely, any shortfall in utilization—if related to an ongoing project—is transferred to a designated 'Unspent CSR Account'. In all other cases, the remaining balance is deposited into a fund prescribed under Schedule VII of the Companies Act.

As per the CCL CSR Policy, approximately 80% of CSR funds are earmarked for deployment within a 25-kilometre radius of the company's mines, project sites, area offices, or corporate headquarters. The remaining 20% is utilized for initiatives elsewhere within the state of Jharkhand.

All CSR activities undertaken by CCL are aligned with the thematic areas specified under Schedule VII of the Companies Act, 2013. These are further guided by instructions issued by the Department of Public Enterprises (DPE), Ministry of Coal (MoC), and other relevant government authorities.

Since 2018, the DPE has issued annual advisories outlining priority thematic areas for CSR investment. In accordance with these guidelines, CCL consistently ensures that nearly 60% of its CSR expenditure is focused on the identified priority theme each year, with a particular emphasis on initiatives located in Aspirational Districts.

Through meticulous planning, targeted implementation, and measurable impact, CCL continues to advance its CSR agenda with the objective of delivering long-term socio-economic value to the communities it serves.

The CCL CSR policy envisages approval of the CSR projects as per following DoPs:

Authority	DoP
Board of Directors	Projects valuing more than ₹ 5.00 Crore on recommendation of SD&CSR Committee
CSR committee of CCL Board	Projects valuing more than ₹ 1.00 Crore up to ₹ 5.00 Crore
Chairman-cum-Managing Director	Projects valuing more than ₹ 40 lakh and up to ₹ 1.00 Crore on recommendation of CSR Below Board level Committee

Authority	DoP
Director (Personnel)	Projects of areas valuing more than ₹ 5.00 lakhs upto ₹ 40.00 lakhs and all projects of HQ valuing upto ₹ 40.00 lakhs on recommendation of CSR Below Board level Committee
Area GM	Projects of Areas valuing upto ₹ 5 lakhs on recommendation of Area level CSR Committee.

The CSR policy envisages extant guidelines for selection, planning, implementation, monitoring, impact assessment and documentation of CSR projects.

2. Composition of CSR committee (FY 2024-25)

S. No	Name of Director	Designation/Nature of Directorship	Number of meetings of CSR committee held during the year	Number of meetings of CSR committee attended during the year
1	Shri Ramesh Kumar Soni*	Chairman, Independent Director	5	5
2	Ms. Rupinder Brar*	Chairperson, Official Part Time Director	2	2
3	Shri Vinay Ranjan	Member, Director (P&IR), CIL	7	7
4	Shri Pawan Kr. Mishra	Member, Director (F), CCL	7	7
5	Shri Harsh Nath Mishra	Member, Director (P), CCL	7	7

*SD&CSR Committee was reconstituted and Ms. Rupinder Brar was appointed as Chairperson of SD&CSR Committee in the 544th Board Meeting held on 06.12.2024.

EXECUTIVE SUMMARY

1. INTRODUCTION

The Social Impact Evaluation (SIE) of Central Coalfields Limited's (CCL) Community Development (CD) initiatives serves the purpose of systematically assessing the effectiveness, relevance, and sustainability of CSR interventions implemented across its operational areas.

Anchored in the principle of 'growth with a human face', these initiatives are developed based on rigorous Need Assessment Surveys and consultations with local stakeholders, including the village representatives, community members, and public representatives. The primary aim of the evaluation is to determine whether CCL's CSR-CD activities align with the actual socioeconomic and cultural needs of the communities, and to provide evidence-based insights into their short- and long-term impacts across key domains such as education, healthcare, livelihood generation, and infrastructure. This evaluation also supports CCL's commitment to responsible corporate conduct and its goal of promoting inclusive and sustainable development.

This impact assessment has been conducted for selected CSR-Community Development initiatives of Central Coalfields Limited (CCL), in line with the mandate of the Ministry of Corporate Affairs (MCA), which requires third-party impact assessments for CSR projects having an outlay of ₹1 Crore or more and a duration of one year or more. The evaluation was undertaken pursuant to the Memorandum of Understanding (MoU) signed between CCL and the Indian Institute of Corporate Affairs (IICA), to ensure evidence-based review, strategic alignment, and outcome-oriented CSR implementation. It adopts a comprehensive and mixed method approach—combining both qualitative and quantitative tools—to examine community perceptions, measure tangible outcomes, and assess the efficient utilisation of financial and non-financial resources. By incorporating stakeholder perspectives and evaluating interventions through the IRECS framework, the study ensures a robust and objective review.

The insights generated will inform strategic improvements in CCL's CSR programming, ensure that interventions remain need-responsive, and contribute to policy refinement, knowledge sharing, and potential partnerships for future development initiatives.

2. METHODOLOGY

The Social Impact Evaluation (SIE) of Central Coalfields

Limited's (CCL) CSR-Community Development initiatives was conducted using a comprehensive mixed-method approach, guided by the IRECS framework, which emphasizes Impact, Relevance, Efficiency, Convergence, and Sustainability. This approach ensured a structured and contextual assessment of project effectiveness, resource utilization, and long-term benefits. The evaluation combined quantitative household surveys with qualitative methods such as Focus Group Discussions (FGDs) and Key Informant Interviews (KIIs). Data collection was led by the Indian Institute of Corporate Affairs (IICA) using structured tools and digital platforms like Kobo Toolbox. Secondary data was drawn from official sources including Census 2011 and institutional records. The evaluation covered five major CSR projects across Ramgarh, Bokaro, Chatra, and other districts, engaging 1,823 respondents through surveys and 410 qualitative responses from 30 stakeholder consultations. This rigorous and participatory methodology ensured a robust, evidence-based review of CCL's CSR initiatives and their alignment with community needs.

3. FINDINGS AND DISCUSSION

Project 1: Upgradation of Anganwadi Centres into Model Anganwadi Centres in Ramgarh District (Jharkhand)

Under the CSR initiative of Central Coalfields Limited (CCL), the upgradation of 150 Anganwadi Centres (AWCs) into Model AWCs in Ramgarh district marks a significant step towards strengthening the early childhood care and education (ECCE) infrastructure under the ICDS scheme. Implemented by the District Administration, the project spanned across Ramgarh, Chitrapur, Dulmi, and Gola blocks, focusing on the transformation of AWCs through minor repairs, BaLA (Building as Learning Aid) paintings, provision of preschool kits, drinking water facilities, child-friendly furniture, and essential equipment. With an outreach of approximately 18,000 women and children, this intervention was envisioned to create safe, engaging, and resourceful spaces for holistic development of children.

As part of the Social Impact Evaluation, a total of 48 AWCs (out of total 150 AWCs covered under project) were assessed, covering 28 villages. The evaluation revealed that 36 centres (72%) had received significant infrastructural enhancements such as child-centric wall paintings, tiled or vinyl flooring, preschool kits, and vibrant classroom materials.

An additional 12 centres (24%) benefitted from advanced facilities like ceiling fans, swings, and play equipment, greatly improving the environment for both learning and health services. Anganwadi Workers (AWWs) across these centres observed positive shifts in attendance, learning interest, and hygiene practices among children. Furthermore, 68% (34 AWWs) were aware that these upgrades were facilitated through CCL's CSR intervention. The remaining 32% (16 AWWs) who were unaware were mostly those newly appointed within the past six months, after the implementation period, indicating a need for re-orientation and documentation sharing for new staff.

While the infrastructure provided under the CSR support was of high utility and well-received

Initially, current findings reflect the urgent need for continuous monitoring and maintenance by concerned government authorities. In several centres, the facilities have deteriorated due to lack of follow-up care, the play materials or child-sized furniture have become broken or unusable. This is due to inadequate institutional mechanisms to sustain and protect these valuable assets. AWWs emphasised that these resources had transformed their centres, but without ongoing support, their utility is being compromised over time.

Encouragingly, 32 AWCs (64%) reported visible improvements in teaching-learning environments. AWWs noted that children were more attentive and engaged with the new BaLA visuals, toys, and preschool materials. In centres like Tandwa and Sutri, child attendance increased significantly, from fewer than 10 to 15–17 per day. Moreover, 70% of AWWs shared that the new infrastructure and learning tools had eased classroom management and made teaching more effective. In total, 92.31% of respondents confirmed improved child behaviour and interest in learning activities following the intervention.

Only 21 out of the 48 AWCs (42%) reported participation of AWWs or community members in the planning or implementation of the upgrades. Centres such as Betulkala and AshnaTola, where such engagement occurred, reported stronger community ownership and greater upkeep of infrastructure. This underscores the importance of participatory approaches in ensuring sustainability and acceptance of CSR interventions.

Despite these gains, some other observation were noticed that are out of the scope of the CCL interventions but needs to do critical services like sanitation and clean drinking water require renewed attention. As many as 40% of the centres still lack functional toilets, 32% face water challenges, and 26% have electricity-related issues, hindering the full use of the infrastructure provided. In

some cases, AWCs still rely on nearby homes for water or lack safe sanitation access for children. However, 76.92% of respondents observed improvements in hygiene habits among children, driven largely by cleaner premises and better handwashing practices enabled by the infrastructure initially provided.

In conclusion, the project has brought meaningful change to the ECCE landscape in Ramgarh district through strategic CSR investment. The key to sustaining this momentum lies in continued government monitoring, prompt repairs, and community engagement. With collaborative stewardship, these Model AWCs can serve as exemplary centres of grassroots development and child-friendly learning in Jharkhand.

Project 2: Upgradation of Anganwadi Centres into Model Anganwadi Centres in Bokaro District (Jharkhand)

As part of its commitment to strengthening grassroots service delivery through Corporate Social Responsibility (CSR), Central Coalfields Limited (CCL) supported the upgradation of 100 Anganwadi Centres (AWCs) into Model Anganwadi Centres in Bokaro district. This initiative was undertaken in response to a request from the District Administration and was implemented in coordination with local authorities across the blocks of Gomia, Nawadih,

Bermo, and Chandrapura. The project focused on minor repairs, BaLA (Building as Learning Aid) painting, provision of preschool kits furniture and other necessary equipments, etc. The aim was to upgrade Anganwadi Centres to make more attractive thereby help to ensure that AWCs in Bokaro deliver services as envisioned by the ICDS scheme—stimulating, inclusive, and conducive to both learning and health outcomes.

As part of the Social Impact Evaluation, a representative sample of 42 AWCs (42%) out of the total 100 upgraded centres was studied using both quantitative and qualitative tools. Among these, 31 AWCs (73.81%) reported substantial infrastructural improvements, including childfriendly wall paintings, improved flooring, new preschool kits, and age-appropriate furniture.

28 AWWs (66.67%) noted that these changes had a direct and positive effect on the learning environment—children became more attentive, showed greater enthusiasm for classroom activities, and daily attendance levels increased. Moreover, 26 AWCs (61.90%) highlighted enhanced hygiene behaviour among children, particularly where drinking water and sanitation infrastructure had been strengthened as part of the upgradation.

While the CSR intervention by CCL has brought significant improvements to the selected Anganwadi Centres, the evaluation also highlighted a few areas that require continued attention and support from local governance structures to sustain the positive momentum. In 14 AWCs (33.33%), certain facilities, such as ceiling fans, play equipment, or BaLA visuals, were found to be underutilised or in need of minor repairs. It is important to note that these issues did not stem from the quality of infrastructure provided by CCL, but rather reflect the need for ongoing monitoring and maintenance by the relevant school or panchayat-level authorities. For instance, a few centres reported dry water tanks or worn-out classroom materials, signalling a natural wear-and-tear over time. With regard to awareness, 30 AWWs (71.43%) recognised CCL's contribution to the upgradation of their centres.

To sum up, the project has made a significant and positive contribution to early childhood education services in Bokaro. 25 AWCs (59.52%) reported better child participation, improved classroom engagement, and improvements in school readiness. In community interactions, parents and local stakeholders consistently appreciated the vibrant, structured learning spaces, many stating that the AWCs now resemble formal pre-primary classrooms. The project stands as a successful model of how CSR funding, when effectively implemented and integrated with ICDS service delivery, can bring about sustainable improvements at the grassroots level.

To ensure these benefits are preserved, it is crucial to establish a system of regular monitoring, timely repairs, and greater involvement of local governance and ICDS functionaries. Such steps would not only protect CCL's investment but also ensure that Model AWCs continue to deliver long-term, inclusive, and holistic early childhood development services.

Project 3: Running of Sports Academy at Hotwar, Ranchi

The Sports Academy at Hotwar, Ranchi, established in April 2016 through a 50:50 cost-sharing agreement between Central Coalfields Limited (CCL) and the Government of Jharkhand, is a flagship initiative operated under the aegis of the Jharkhand State Sports Promotion Society (JSSPS).

As part of the evaluation, 26 cadets aged 17 years, across multiple disciplines like boxing, football, taekwondo, shooting, and tennis, participated in Focus Group Discussions (FGDs).

All cadets (100%) unanimously acknowledged the transformative impact of the academy on their personal

and professional aspirations. They appreciated the fairness of the selection process, conducted through transparent district-level talent hunts, and noted the inclusive nature of enrolment, ensuring representation from tribal, rural, and economically weaker sections.

A significant 84.6% of respondents rated the coaching quality as 'good', while 100% confirmed receiving structured and consistent mentorship, including backup support during coaches' absence. All cadets participated regularly in tournaments and competitions, with 46.2% (12 out of 26) reporting medals or cash prizes at state and national levels, particularly in boxing and football. While 76.9% were satisfied with sports equipment availability, 38.5% highlighted issues like the unavailability of spikes and training gear during sessions, pointing to the need for streamlined logistics and timely procurement despite the high-quality infrastructure made available under the initiative.

Cadets (100%) expressed satisfaction with the hostel facilities, noting recent upgrades and construction improvements. Regarding nutrition, 76.9% found food quality satisfactory, and all cadets confirmed access to regular medical services, injury management, and group insurance. The presence of an injury care unit, cashless shop, and Wi-Fi enabled campus contributed to a secure and enriching environment. All participants also confirmed that the academy maintained an effective balance between sports, academics, and rest, enabling holistic growth and well-being.

All 26 cadets attributed significant improvements in confidence, discipline, and social skills to their time at the academy. Regular soft skills sessions and exposure to structured routines fostered personal growth, with cadets comfortably navigating social and professional settings.

Encouraged by their experience, every respondent expressed a desire to pursue a career in sports, aiming to represent India at national and international levels. Looking ahead, cadets strongly advocated for career assurance, including job placements, professional training, and access to higher-level opportunities post-graduation. They expressed hope that JSSPS and partner institutions would continue to support their transition from cadetship to professional sports careers, ensuring the longevity of the academy's impact. The Hotwar Sports Academy stands as a model CSR intervention, demonstrating how structured investment in youth development through sports, education, and life skills can transform lives. With over 1774 medals won to date at international, national, and state levels, the academy is already delivering on its objective of preparing young athletes for global platforms. Moving forward, sustained infrastructural upgrades,

equipment management, and career support mechanisms will be vital in preserving and amplifying this impact. CCL's CSR partnership has laid a strong foundation, and with continued convergence from state authorities, the academy is well-poised to produce Olympic-level champions from Jharkhand.

Project 4: Infrastructure Enhancement in Government Schools under Amrapali- Chandragupt Area, Chatra District (Jharkhand)

The infrastructure enhancement project implemented by Central Coalfields Limited (CCL) under its CSR initiative has brought notable improvements across five government schools in the Amrapali-Chandragupt mining project area, located in Tandwa block, Chatra district, Jharkhand. The intervention focused on key infrastructural components including the construction of toilets, provision of running water and water purifiers, boundary wall construction, additional classroom development, and playground levelling. As a result, 3 out of 5 schools (60%) now have access to clean drinking water with functional water purifiers, significantly improving hydration, student health, and hygiene. In 2 out of 5 schools (40%), newly constructed boundary walls have enhanced student safety and secured school premises.

Hygiene awareness sessions conducted by teachers in all five schools (100%) have positively influenced students' sanitation habits, with 3 schools (60%) reporting visibly cleaner premises and improved handwashing behaviours among students.

Moreover, the initiative has strengthened the learning environment. 1 school (20%) now has sufficient classroom space to accommodate all students comfortably, reducing overcrowding and distractions. Although 4 schools (80%) continue to require classroom expansion and furniture, the constructed infrastructure has already contributed to better academic engagement and student participation. The project's impact is clearly visible in the enthusiasm expressed by students, with 100% of them across all five schools reporting greater interest in attending school due to the improved environment—particularly better sanitation and access to clean water. Furthermore, 3 schools (60%) acknowledged CCL's role in these enhancements, reflecting growing awareness of CSR support in the community.

Overall, the project showcases CCL's strategic and impactful CSR contribution towards improving rural school infrastructure and promoting holistic child development. While 2 schools (40%) reported minor issues such as damaged water tanks or limited toilet usability due to lack of running water, these challenges

were attributed to the absence of sustained maintenance from school authorities, not the quality of the CSR-funded infrastructure. The intervention has created safer, healthier, and more conducive educational environments, motivating both students and teachers. Moving forward, the longevity and continued success of this initiative can be ensured through periodic maintenance, panchayat-level engagement, and convergence with government schemes. The positive shift in student behaviour and aspirations, including their call for digital classrooms, science labs, and sports facilities, clearly demonstrates that the project has laid a strong foundation for sustained educational advancement in these communities.

Project 5: Construction of Prefabricated Toilets near Railway Stations in Jharkhand

Under the Corporate Social Responsibility (CSR) initiative of Central Coalfields Limited (CCL), the construction of 68 prefabricated public toilet units across selected railway station circulating areas in Jharkhand represents a significant effort toward achieving the goals of Swachh Bharat and improving sanitation infrastructure for approximately 3,500 daily users. One pre-fabricated toilet block constitutes 3 male, 3 female and 1 differently-abled toilet. Implemented under MOU with RITES and South Eastern Railways (SER), this intervention directly responds to the Ministry of Railways' national call to provide clean, safe, and accessible sanitation facilities in circulating areas of railway stations for use by passengers as well as vendors and local villagers. RITES had role of awarding and concerned zonal railway had role of providing site, execution of agreement, arranging water and electricity and maintenance/upkeep for sustained use.

However, feedback collected through Key Informant Interviews (KIIs) with 14 stakeholders from various stations including Daltonganj, Barkakana, Tori, Lohardaga, and Garhwa Road, suggested that while the infrastructure was positively received at the outset, its long-term sustainability is currently challenged by operational and institutional gaps. While the toilets were constructed to a decent standard, 13 out of 14 respondents (92.9%) reported irregular cleaning schedules, lack of water supply, and unavailable disinfectants, making them difficult to use. For instance, only 3 respondents (21.4%) confirmed regular water availability, and nearly 93% indicated an absence of waste disposal systems by the railways. Despite the inclusion of accessibility features, only 6 out of 14 stations (42.9%) confirmed these facilities were truly functional for divyangjans, largely due to units being locked or poorly maintained. The toilets were also reported to be physically deteriorated in places like Bokaro Thermal and Daltonganj, where doors were broken, lighting was absent, and odour

made usage difficult—issues not linked to construction quality but rather to the lack of maintenance by Railways. Stakeholders expressed strong support for the project's vision but underlined that sustainable maintenance mechanisms must be institutionalised to preserve the utility of the infrastructure.

Most stations confirmed that no dedicated funds had been allocated for ongoing upkeep, and in some cases, like Lohardaga and Garhwa, units had not even been formally handed over to station authorities by the contractor/ RITES.

Suggestions from field informants included the appointment of permanent cleaning staff, implementation of station-level complaint redress systems, integration with "Amrit Bharat" station upgrades, and routine servicing through railway budgeting/external funding. The involvement of local communities and station staff in awareness-building and basic upkeep can further enhance ownership and utility. Going forward, the project holds immense potential to contribute to national goals on sanitation and inclusivity, provided that a clear maintenance roadmap, inter-agency coordination, and routine monitoring are embedded.

4. CONCLUSION AND WAY FORWARD

The Social Impact Evaluation (SIE) of Central Coalfields Limited's (CCL) CSR-Community Development (CD)

initiatives reveals a multifaceted and largely positive transformation across key domains such as early childhood education, school infrastructure, sanitation, and youth development through sports. The evaluated projects have demonstrated measurable improvements, reaching over 23,000 direct beneficiaries, with enhancements in child learning environments through the upgradation of 250 Anganwadi Centres in Ramgarh and Bokaro, infrastructure support in five government schools in Chatra, and the operation of a highperforming Sports Academy in Ranchi, which has empowered tribal and rural youth, contributing to over 1,774 medal wins.

While the construction of 68 prefabricated public toilets has addressed critical infrastructure needs at railway stations, sustainability challenges around maintenance, water access, and accountability must be addressed to maximise long-term impact.

Overall, CCL's CSR interventions have proven relevant, efficient, and aligned with local needs, affirming the company's commitment to inclusive growth and community well-being. Going forward, convergence with government schemes, structured maintenance mechanisms, and deeper community engagement will be key to sustaining and scaling these gains across Jharkhand. Need/Scope of several additional CSR interventions have been noticed in Anganwadi centres and mentioned for possible future interventions by company/government.

Handloom Weaving Training
