Management Discussion & Analysis Report

OVERVIEW

The objective of this report is to convey the Management's perspective on the external environment and Coal Sector and CCL as a subsidiary of Coal India Limited (CIL), as well as strategy, operating and financial performance, material developments, risks and opportunities and internal control systems etc. in the Company during FY2024-25. This should be read in conjunction with the Company's financial statements, the schedules and notes thereto and other information included elsewhere in this Annual Report and Annual Accounts 2023-24. The Company's financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') complying with the requirements of the Companies Act, 2013, as amended from time to time.

GLOBAL ECONOMY

In 2024, the global economy grew at a rate of 2.8%, with regional disparities. Despite positive trends like reducing inflation and monetary easing in several countries, geopolitical risks around trade policy uncertainty, and ongoing conflicts continued to weigh on global economic sentiment. The economy globally is projected to continue to grow in 2025. While there is a reducing intensity in tariffs globally, developments in this area including trade agreement between major blocks like United States of America, United Kingdom, European Union, China, India among others, and a ceasefire deal between Russia and Ukraine and halt of war in the middle-east will be key factors impacting the economic activity.

Economic Outlook

The global economy is expected to grow by 2.3% in 2025. The tension around trade and high levels of policy uncertainty are expected to have a significant impact on the economic activity. Global inflation is expected to moderate to 4.3% in 2025 and 3.6% in 2026, approaching central bank targets. While advanced economies are likely to contain inflation more effectively than emerging markets, rise in protectionism and geopolitical tensions around trade will significantly impact prices of domestic products especially in United States. Inflation in the services section in major economies like the United States and the Europe is expected to remain above pre-pandemic levels. The monetary policy remains divergent, with some central banks maintaining caution in their easing cycles. Fiscal policy in advanced economies is expected to

tighten in 2025, with developing economies implementing comparatively moderate adjustments.

Indian Economy

India is one of the fastest-growing major economy. It demonstrated a growth rate of 6.5% in FY2024-25. Despite global headwinds, India's growth is expected to remain rangebound, 6% - 6.5%, in the next couple of years. The economy is expected to be driven by strong domestic consumption, government capital expenditure, and robust expansion in the services and manufacturing sectors. Inflation is projected to moderate and be rangebound, 4.0-4.5% in the near term, supported by favourable food price trends. Core inflation across goods and services has remained stable, while fuel prices have declined. The moderation in inflation has enabled the Reserve Bank of India to adopt a more accommodative stance, with interest rate cuts anticipated to stimulate consumer spending and credit growth. Foreign Portfolio Investment volatility is expected to subside, while softening crude oil prices will likely support exchange rate stability. On the sectoral front, the services sector has demonstrated resilience, with financial services, real estate, professional services, public administration, and defence driving growth. Exports in the services sector have also recorded strong performance. Construction activities and utility services have supported industrial growth, while highvalue-added manufacturing exports—particularly in electronics, semiconductors, and pharmaceuticals—have shown robust momentum. Agricultural production has remained strong, underpinning rural consumption, and contributing to steady economic activity in rural markets. The Government of India ('Gol') remains focused on fiscal consolidation, employment generation, and boosting capital investment. The share of capital expenditure in central government spending has continued to rise, playing a critical role in industrial and infrastructure development. Increased capital outlays on infrastructure and asset creation are expected to generate growth multipliers. The PLI scheme has successfully attracted investments and stimulated production across various industries. The Government is exploring further sectoral expansion to enhance domestic manufacturing and develop labour-intensive industries. Despite India's strong economic momentum, certain downside risks persist. Towards the end of 2024, economic activity moderated due to weaker private and foreign investment flows, impacting industrial output. The rupee's depreciation, coupled with

uncertainties surrounding cross border conflicts, global trade policies and supply chain disruptions, could pose a few challenges.

Overall, India's economic outlook remains strong, driven by robust domestic demand, policy support, and sectoral resilience. Improving trade relations with the developed economies will provide the requisite impetus to the economy. By leveraging its domestic strengths and implementing strategic reforms, India is well-positioned to navigate global challenges and maintain its trajectory as a leading global economic powerhouse.

A. INDUSTRY STRUCTURE AND DEVELOPMENT

i. Coal- Primary source of Energy:

Coal remains the predominant indigenous energy sources in the country. The energy security of the country and its prosperity are integrally linked to efficient and effective use of this abundant, affordable and dependent fuel, coal. Further, Coal is poised to remain a significant component of India's energy landscape for the foreseeable future, primarily to sustain the country's rising living standards and meet the increasing energy demands of its rapidly growing economy. As one of the primary sources for energy generation, coal is projected to see a continued rise in demand through 2035 and beyond, driven by the robust expansion of the Indian energy sector.

Several factors influence the elasticity of coal demand, including economic growth, improvements in energy efficiency, the development of alternative uses for coal, and advancements in renewable energy technologies. Despite the global shift towards cleaner energy sources, coal remains a critical resource for India, where it plays a vital role in ensuring energy security and affordability.

In the fiscal year 2024-2025, coal-based power generation accounted for approximately 72.93% of India's total electricity generation, which reached around 1,660 billion units (BU). This reliance on coal underscores its importance in the energy mix, especially as the country aims to balance economic growth with energy needs. Furthermore, with India's population projected to exceed 1.5 billion by 2030, the demand for reliable and affordable energy sources will only intensify, solidifying coal's position in the energy sector for the foreseeable future.

The importance of coal in India's energy landscape remains significant, even as the country navigates the challenges of integrating renewable energy sources into its energy mix. While there is a growing global consensus on the need to gradually phase down coal to mitigate greenhouse gas emissions and promote cleaner fuels, coal continues to play a crucial role in meeting the energy demands of a rapidly developing economy

Coal India Limited (CIL) and its subsidiaries accounted for 781.05 MT during 2024-25 as compared to a production of 773.64 MT 2023-24 showing a positive growth of 1 %.

vii. STRENGTH AND WEAKNESSES, OPPORTUNITIES AND THREATS (SWOT ANALYSIS)

Strength	Weaknesses
- High coal reserves with huge production potential. The coal reserves include non-coking coal (used in power plants) as well as coking coal (used in steel plants). - Infrastructure available in almost all Coal Blocks: All coalfields of CCL have a reasonably good rail & road network and thus planning & implementation of projects become easier with smooth transportation of man and machineries as well. This rail & road network further enables swift movement of Coal to the consumers.	- Most of the newly explored coal blocks are under forest cover, which will require statutory clearances like FC, FRA, and Wild Life etc. These clearances are obtained through cumbersome processes and are time consuming. - The command area of CCL has high population density and therefore requires substantial R&R activities causing delay in start of projects.

Strength	Weaknesses
- Skilled and diversified Manpower with experience available in sufficient numbers: CCL has been in the business of coal mining for over 45 years. Its manpower strength as on 31.03.2024 is 33,990 which comprises of skilled HEMM operators and manpower in different discipline and trades, who are well conversant with their jobs. - Application of information technology: Owing to the remoteness of mining areas, implementation and operation of IT initiatives was a challenge in early days specifically in view of absence of reliable network infrastructure. However, over the period of last 10 years, several breakthrough initiatives have been taken and all Areas as on 31.03.2023 are covered under Mobile connectivity and centralized Internet Leased Line services. Besides, the company has its own WAN (Wide Area Network) sourced through two major reputed service providers thereby ensuring redundancy in connectivity. Additionally structured LAN (Local Area Network) for all users has been established for harnessing benefits of ERP and e-office, which enables faster sharing of information and data-based decision-making process. - Very low employee attrition rate: The salary and wages offered to the employees in CCL are the best in the Coal Mining Industry. This has resulted in a very low attrition of employees. The performance related pay introduced since FY 2007-08 for executives and wage revision for non-executives has further boosted the morale of employees. - Strong and consistent track record of growth and financial performance.	- Possession of land is quite difficult in CCL due to variety of issues such as presence of GM JJ land, Form-H issues, CS/RS issues, doubtful ownership issues, overlapping is- sues etc. All these aspects cause delay in start of projects. - Difficult geo-mining conditions such as old workings, fire and subsidence, highly dipping deposits, multiple seams etc. - Relatively Inferior coal quality as compared to other countries due to drift formation nature of India. - Constantly increasing demand for salary hike by employees will further overload the cost components, structure and profitability may get minimized.
Opportunity	Threats
- The demand for coal is rising day by day by strong economic growth in India and it is expected that the demand-supply gap of coal is likely to increase in future and thus the market opportunities are going to increase and expand day by day. - Outsourcing of production processes: CCL can also resort to outsourcing of OBR removal and coal production, wherein the departmental capacity is already utilized or deployment of departmental equipment is not economical. Even marginal deposits and thin seam operations can be done through outsourcing, at much cheaper cost than that by departmental resources. - Opportunities for value addition of its products through sizing, washing or conversion to Liquid and Gas: The price of washed coking coal is 3-4 times of raw Coking Coal. Different washeries of the company operate upon this to take advantage of the price differential beyond the available capacity of the projects. - Wide Scope for promoting alternative usage of coal with relatively lesser carbon footprint through adoption of coal to liquid and coal to gas technologies. - Since rapidly evolving renewable energy is mentioned as one of the threats for coal sector, it may not be proper to mention the same (diversification into solar) as an opportunity. Instead, the sentence may be re-written as - 'CCL has vast areas of reclaimed land that can be used for various business purposes such as eco-parks, tourism, industrial/business hubs, pumped hydro, solar power (for achieving net zero target) etc.'	- Pressure of international body like UN to comply Paris Agreement & COP26 at Glasgow on climate change to curb use of fossil fuel (Net Zero by 2070). - Rapid world-wide research in energy field may result in evolution of disruptive technologies such as Hydrogen fuel, nuclear fusion, geo-thermal energy etc. as cheaper and green energy sources resulting in fall in coal demand at faster clip. - Renewable Energy: The fast expansion of renewable energy resources (Solar, Hydel Wind etc.) is a threat to the mining industry. - Captive mining in coal is now permitted in India, also coal blocks are allotted to many private players which may result in lowering of demand in the coming times. - Upcoming private players may tend to hire the highly skilled employees of the company through better Pay, Perks and other facilities.

C. OUTLOOK

Coal India is targeting to achieve 875.24 MT of coal production in 2025-26, in which Central Coalfields Limited will contribute 110 MT of Coal. Major projects of the company such as Magadh EPR OCP (51 MTY), Amrapali EPR OCP (25 MTY), Ashok EPR OCP (20 MTY), Sanghamitra OCP (20 MTY), Chandragupta OCP (15 MTY), Karo EPR OCP (11 MTY), Rohini Karkata OCP (10 MTY), Konar EPR OCP (8 MTY), North Urimari OCP (7.5 MTY), Pundi RO OCP (5 MTY) and Kotre Basantpur Pachmo OCP (5 MTY) which are expected to contribute significantly in near future.

D. RISKS AND CONCERNS:

- Delay in obtaining forestry clearance and environmental clearance.
- High cost of Rehabilitation and resettlement
- Demand of employment by land oustees beyond the prescribed norms resulting in frequent law and order problems and obstruction of mining and coal transportation operation.
- Long lead time to procure HEMMs and other E&M items.

E. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The company has well established internal control systems and procedures commensurate with its size and nature of business. A system of "Transaction

audit" by outside Audit Firms of Chartered/Cost Accountants is in operation throughout the year in the direction of full filling the statutory requirement as well as internal control system. There is a well-defined scope, formulated and regulated by CIL, covering all the facets of the operation of the organization for internal audit jobs.

For achieving the objective of strengthening the internal financial control and also for meeting the statutory provision, physical verification of stores/spares is conducted by the outside audit firms on annual basis.

The inspection reports of CAG form part of our measures for strengthening the internal control system. The observations of the CAG are replied on regular basis. The observations are well taken care of for taking remedial measures whenever considered necessary.

J. GOING CONCERN

The Going Concern assumption is a fundamental principle in the preparation of financial statements. Under the going concern assumption, an entity is ordinarily viewed as continuing in business for the foreseeable future with neither the intention nor the necessity of liquidation, ceasing trading or seeking protection from creditors pursuant to laws or regulations.

When an entity has a history of profitable operations and ready access to financial resources, a conclusion that the going concern basis of accounting is appropriate may be reached without any detailed analysis.

The management has assessed a range of scenarios to

determine potential impact on underline performance. As part of going concern assessment, management has assessed the impact of current events and conditions and paid attention to significant assumptions that are sensitive or susceptible to change or inconsistent with historical trends. The subject judgment is based on reasonable assumptions and the perception developed by the management on the economic impact of changing internal and external contexts on the company's ability to continue as a going concern.

Based on historical financial results and current economic and market conditions and indicators, it reveals that operations of CCL will continue to be profitable in recent future and there is no effect on going concern of the entity.

INDEPENDENT AUDITOR'S REPORT

To
The Members of Central Coalfields Limited,
Report on the Audit of Standalone Ind AS Financial
Statements Opinion

On the basis audit queries made by the Comptroller & Auditor General of India, this revised audit report (Revising Sl. no. 1 of other matters") has been prepared in lieu of the earlier report dated 4th June 2025 to comply with observations issued by the Comptroller General of India.

We have audited the accompanying Standalone Ind AS financial statements of **Central Coalfields Limited** ("the Company") which comprise the Balance sheet as at 31st March 2025, and the Statement of Profit and Loss (Including Other Comprehensive Income), Statement of changes in equity and Statement of Cash flows for the year then ended, and notes to the Standalone Ind AS Financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "financial statements") in which are included the Returns for the year ended on that date audited by the Branch/ Area Auditors of the Company's branches/ areas located at Kathara, Dhor, Bokaro & Kargali, Kuju, North Karanpura, Piparwar, Magadh & Sanghmitra, Amrapali & Chandragupta, Rajhara, Charhi and remaining five (5) Branches/ Areas (Argada, BarkaSayal, Rajrappa, Head Quarter & BarkaKana CRS) audited by us.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors, the aforesaid Standalone Ind AS financial statements give the information required by the Act in the manner so required and give true and fair view in conformity with the accounting principles generally accepted in India, including the Ind AS, of the financial position of the company as at 31st March, 2025 and its financial performance including other comprehensive income, its cash flow and the statement of changes in equity for the year ended on that date.

Basis of our Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibility in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matters:

Refer Note-6.2.5: Other Current Assets - Accumulated amount of ₹ 1763.46 Crore under GST Input Tax credit is a case in reference under inverted duty structure. As per the Honorable Supreme Court decision for the refund under Inverted Duty Structure dated 13.09.2021, recoverability/ adjustability of the amount stands uncertain.

Our opinion is not modified in respect of this matters.

Key Audit Matters:

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Auditor's Response
Ind AS 115 "Revenue from Contracts with Customers":	Principal Audit Procedures:
In the standalone Ind AS financial statements in respect of accuracy of revenue recognition and adjustments for coal quality variances involves critical estimates.	We have assessed the application of the provisions of Ind AS 115 in respect of the Company's revenue recognition and appropriateness of the estimated adjustments in the process. We have selected transactions on sample basis and tested for identification of contracts involving disputes relating to grade mismatch/ slippage with respect to the terms of the contract, evaluation of the satisfaction of performance obligation checking the adjustment to the revenue due to variation in transaction price. We have performed tests to establish the basis of estimation of the consideration and whether such estimates are commensurate with the accounting policy of the Company.

Key Audit Matter	Auditor's Response
The revenue recognized by the Company in a particular contract is dependent on the sale agreement / allotment in e-auction for the respective customer. Subsequent adjustments are made to the transaction price due to grade mismatch/slippage of the transferred coal. The variation in the contract price if not settled mutually between the parties to the contract is referred to third party testing and the company estimates the adjustments required for revenue recognition pending settlement of such dispute. Such adjustments in revenue are made on estimated basis following historical trend. Refer to Note 12.1. to the Standalone Ind AS Financial Statements	Audit Conclusion: Our procedures did not identify any material exceptions.
Evaluation of provisions and Contingent Liabilities: The Company has a number of litigations including direct and indirect taxes, various claims, etc. pending before various forums against it and the management's judgement is required for estimating the amount to be provided and/or disclosed as contingent liability. We identified this as a key audit matter because the estimates and assessment with respect to these involve a significant degree of management's judgement, interpretations, and may therefore require adequate attention to arrive at the required conclusion. (Refer Note 16.1(a) to the Standalone Financial Statements, read with the material Accounting Policy No. 2.22)	Our Audit procedures based on which we arrived at the conclusion regarding reasonableness of disclosure of contingent liability and recognition of provisions includes the following: We have evaluated that the control is in place in respect of estimation, assessment and disclosure of the pending litigation cases to be treated as Contingent liabilities. Reviewed the existing status considering any material developments of matters of all the opening Contingent Liabilities and those have been identified during the reporting period. We have gone through various correspondences and related documents pertaining to pending legal cases and relevant external legal opinions obtained by the management and performed substantive procedures on estimation supporting the disclosure of contingent liabilities; We have reviewed the management's judgements and assessments with respect to the provisions if any required for any such matter and also reviewed the background of those matters which have not been provided for or disclosed as contingent liability since the probability of material outflow has been considered to be remote; We have examined the adequacy and completeness of disclosures; Our Audit procedure did not identify any material exceptions.

Information Other than the Standalone Ind AS Financial Statements and Auditor's Report Thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the Standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the Standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibility of Management for the Standalone Ind AS financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income

and cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also: -

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion.

Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.

Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation. Materiality is the magnitude of misstatements in the standalone Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Ind AS financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Ind AS financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicated with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other matters:

1. Under Note No. 3.1 on Property, Plant and Equipment, land compensation payable to the displaced families occupying the Land is considered by CCL based on the amount of actual compensation paid. Further, any new heap is created only after approval of the competent authority
2.	Whether the company has conducted physical verification exercise of assets and properties at the time of merger/ split/ re-structure of an area. If so, whether the concerned subsidiary followed the requisite procedure.	We have been informed that no merger/spilt of Area has taken place during the FY 2024-25.
3.	Whether separate Escrow Accounts for each mine has been maintained in CIL and its subsidiary companies. Also examine the utilization of the fund of the account.	As per information and explanation given to us, Escrow Accounts for 68 mines have been maintained and during the year, the CCL has received sum of ₹ 13.54 Crore (P.Y. ₹ Nil.) for mine closure activities after obtaining approval from the Coal Controller Office. In respect of Pindra OC Mines and Tapin South OCP, Escrow accounts have not been opened due to non-availability of Approved PR&MCP. The ministry of Coal has issued Guidelines for preparation of Mining Plan and Mine Closure plan for Coal and Lignite blocks 2025 dated 31st January, 2025. Refer para 3.5.1 of the said guidelines stipulates the following: The revised rate for deposition towards escrow account is Rupees Fourteen Lakh per hectare for open cast and Rupees Two lakh per hectare for underground Mine. The Project proponent is required to deposit the said amount for each financial year by 30th September of the respective year. Further, all operating coal/ lignite mines are to revise their escrow agreement within one year after coming into force of these guidelines. Accordingly, CCL has considered the revised rate for deposition towards Escrow account in preparation of Financial Statement for the Financial Year 2024-25. The modification of Escrow agreement in respect of each mines is to be done by January, 2026.

Annexure - "C" referred to in paragraph 3(g) of "Report on Other Legal and Regulatory Requirements" of Independent Auditor's Report on the standalone Ind AS financial statements for the for the year ended March 31, 2025, we report that; Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of 'Central Coalfields Limited' ("the Company") as of 31st March 2025 in conjunction with our audit of the Standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use,

or disposition of the company's assets that could have a material effect on the Standalone Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the

degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
